

Trevor Blondeel works with manufacturers to connect the top to the shop floor.

Introducing Trevor...

Thank you so much for working with me today!

Please find here my introduction. *Phonetic spelling - 'Blon deal' of Operations Kickstart*

Would you like the top of your organization to be connected to the shop floor?

Do you wish you could spend more time focused on what you want to work on, and less on the daily concerns?

Could you use a different approach in behaviors to get you a desired result?

Our presenter today spent over 25 years leading manufacturing plants, only to find out years later he was in the people industry!

His passion lives in how we show up, and the power of seeing ourselves through the eyes of others. He is the author of several published articles and a soon to be released white paper on his research in Emotional Intelligence driving impact on organization's results, and host of the podcast Mindfulness Manufacturing.

Today he is speaking to you about the changes in your control that can have an immediate positive impact in your company and team, and how he had to get it wrong himself, to get it right!

Please join me in welcoming speaker, advisor and Canadian who loves living in the south, **Trevor Blondeel founder of Operations Kickstart.**

Sincerely,
Trevor Blondeel
